

Alternative Provision

clientsupport@youngeducation.co.uk

youngeducation.co.uk

Welcome to YoungEducation Alternative Provision

A Warm Welcome

Choosing the right educational provision is one of the most important decisions a family, school or Local Authority can make. We understand that many of the young people referred to us have experienced challenges that have affected their confidence, wellbeing and engagement with education. Our role is to provide a fresh start—a place where every young person feels safe, valued and supported to achieve their potential.

At YoungEducation, we believe that meaningful progress begins with positive relationships. Before learning can flourish, young people need to feel understood, respected and encouraged. That philosophy shapes everything we do, from the way we welcome a young person on their first day to the personalised programme we create to support their individual journey.

Whether a young person is rebuilding confidence, preparing to return to education, working towards qualifications or exploring future career pathways, our experienced team is committed to helping them take positive steps towards a brighter future.

Who We Are

Founded in 2010, YoungEducation is an established education provider specialising in high-quality Alternative Provision for young people aged 5–18.

We work in partnership with Local Authorities, schools and families to provide personalised programmes that combine academic learning, specialist mentoring, wellbeing support and enriching practical experiences. Every programme is carefully tailored to meet the individual needs, interests and aspirations of the young person, ensuring they receive the right support at the right time.

Our team of qualified teachers, specialist mentors, safeguarding professionals and industry experts work together to create a calm, structured and nurturing environment where young people can rebuild confidence, re-engage with learning and develop the skills they need for lifelong success.

Our approach is built around four simple principles:

- **Build trusting relationships** that help young people feel safe, understood and ready to learn.
- **Deliver personalised education** that supports academic progress while recognising individual strengths and interests.
- **Develop confidence and independence** through mentoring, practical experiences and real-world learning opportunities.
- **Create positive futures** by preparing young people for further education, employment and adulthood.

At YoungEducation, we don't simply provide an alternative to mainstream education - we provide opportunities, inspire ambition and empower young people to believe in themselves and their future.

0800 888 6221 | clientsupport@youngeducation.co.uk | www.youngeducation.co.uk

Our Curriculum

A Personalised Learning Journey for Every Stage of Education

At YoungEducation, we recognise that every young person's educational journey is unique. Some children require early intervention to rebuild confidence before negative experiences become deeply embedded, while others need specialist support during adolescence or additional preparation as they move towards adulthood.

Our curriculum has been carefully designed to support young people from **5 to 18 years**, providing a personalised programme that evolves alongside their needs, abilities and aspirations. At every stage, we combine high-quality teaching with mentoring, wellbeing support and practical learning experiences to ensure that young people not only make academic progress but also develop the confidence, resilience and independence needed to succeed beyond the classroom.

Whilst every timetable is individually tailored, all programmes are underpinned by a strong commitment to developing literacy, numeracy, communication, emotional wellbeing and preparation for the future.

Primary Provision (Ages 5–11)

Early intervention can have a life-changing impact. Our Primary Provision is designed to support younger children who may be experiencing school anxiety, difficulties with emotional regulation, Special Educational Needs and Disabilities (SEND), or barriers that are affecting their ability to engage successfully in education.

Learning takes place within a calm, nurturing and structured environment where relationships are prioritised and children are encouraged to rediscover enjoyment in learning. Lessons are carefully planned to build confidence through achievable success, while practical and creative activities help children develop communication, social skills and emotional resilience.

Our Primary Provision focuses on developing strong foundations in:

- English, including reading, writing and communication.
- Mathematics, building confidence with number and problem solving.
- Emotional wellbeing and positive relationships.
- Creativity, curiosity and a love of learning.

Every child is supported to progress at their own pace, ensuring that learning remains enjoyable, engaging and achievable.

Secondary Provision (Ages 11–16)

Our Secondary Provision is designed for young people who require a personalised approach to education that combines academic learning with mentoring, wellbeing and practical experiences.

For many students, confidence has been affected by previous experiences in education. Our approach focuses on rebuilding that confidence by providing small teaching groups, personalised learning programmes and consistent support from qualified teachers and specialist mentors.

Alongside our core curriculum of English and Mathematics, young people

have the opportunity to engage in a wide range of vocational, creative and physical pathways that help make learning meaningful, develop new skills and encourage positive engagement.

Our Secondary Provision supports young people to:

- Re-engage with education and improve attendance.
- Work towards recognised qualifications.
- Develop confidence, resilience and independence.
- Explore future career interests through practical learning.
- Build positive relationships with trusted adults and peers.

Every programme is designed to help young people experience success and recognise their own potential.

Post-16 Provision (Ages 16–18)

Preparing young people for adulthood requires more than academic achievement. Our Post-16 Provision focuses on helping young adults develop the knowledge, confidence and practical skills needed to make successful transitions into further education, apprenticeships, employment and independent living.

Programmes are tailored around each individual's aspirations and provide opportunities to continue developing English and Mathematics alongside employability skills, vocational learning and life skills that promote independence.

Young people are supported to prepare for their next steps through:

- Functional Skills English and Mathematics.
- Career exploration and progression planning.
- Employability skills, including CV writing and interview preparation.
- Independent living skills such as budgeting, cooking and travel confidence.
- Continued mentoring and wellbeing support throughout transition.

Our aim is to ensure that every young person leaves YoungEducation equipped not only with recognised achievements, but with the confidence, resilience and practical skills to embrace the opportunities that lie ahead.

Supporting Every Stage of the Journey

Whether a child is taking their first steps back into education, a teenager is rebuilding confidence after a difficult period at school, or a young adult is preparing for life beyond compulsory education, our curriculum is designed to provide the right support at the right time.

By combining personalised education with specialist mentoring, practical learning and meaningful enrichment opportunities, we help every young person develop the skills, confidence and ambition to achieve their own version of success.

Flagship Pathways

Learning Beyond the Classroom

Every young person is motivated by different interests, talents and ambitions. Whilst academic learning remains at the heart of our provision, we recognise that many young people reconnect with education when learning becomes practical, purposeful and personally meaningful.

Our flagship pathways have been carefully developed to inspire curiosity, build confidence and provide opportunities for young people to discover strengths they may never have realised they possessed. Delivered alongside experienced teachers and industry professionals, these pathways combine practical skills with recognised achievement, helping young people understand how education connects to real life and future careers.

More importantly, these experiences often become the turning point in a young person's educational journey. Success achieved through practical learning frequently leads to increased confidence, improved attendance and greater engagement across all areas of their programme.

Barbering & Grooming Academy

Our Barbering & Grooming Academy provides young people with the opportunity to learn professional barbering techniques in a realistic and supportive environment. Working alongside experienced industry professionals, they develop practical skills while also building confidence, communication and professionalism.

As young people begin to see the quality of their work improve, they develop a genuine sense of pride and achievement. Many discover a talent that not only increases their engagement in education but also introduces exciting opportunities for future training, apprenticeships and employment.

Throughout this pathway, young people develop:

- Professional barbering techniques and styling skills.
- Safe use of specialist equipment.
- Customer service and communication skills.
- Confidence, responsibility and attention to detail.

For many young people, barbering becomes far more than learning a practical skill—it becomes a pathway towards confidence, independence and future employment.

DJing & Music Production Academy

Music has a unique ability to inspire creativity, encourage self-expression and build confidence. Our DJing & Music Production Academy allows young people to explore the creative industries through hands-on experience using professional equipment and industry-standard software.

Working alongside experienced musicians and music production professionals, young people learn how music is created, recorded, mixed and performed while developing valuable technical and creative skills.

Through this pathway, young people have opportunities to:

- Learn professional DJ techniques.
- Produce and record original music.
- Develop confidence through creative expression.
- Improve focus, collaboration and communication.
- Explore careers within the music and creative industries.

For many young people who have struggled within traditional classrooms, music provides an opportunity to express themselves in ways that words sometimes cannot, helping to improve emotional wellbeing alongside educational engagement.

Cooking & Food Technology Academy

Cooking is one of the most valuable life skills a young person can develop. Our Food Technology Academy combines practical cookery with nutritional education, independence and creativity, enabling young people to develop skills that will benefit them throughout their lives.

Led by a qualified Food Technology teacher and supported by experienced catering professionals, young people prepare a wide range of healthy meals while learning about nutrition, food safety, budgeting and meal planning. One of the most rewarding aspects of this pathway is the opportunity for young people to take meals home to share with their families. This not only reinforces the skills they have developed but also creates moments of pride, accomplishment and positive family interaction.

Through this pathway, young people develop:

- Practical cooking and food preparation skills.
- Healthy eating and nutritional awareness.
- Kitchen safety and food hygiene.
- Independence, planning and organisation.
- Transferable skills relevant to hospitality and catering careers.

Cooking is about far more than preparing food. It develops confidence, responsibility and independence while helping young people recognise the value of contributing positively to everyday family life.

Learning That Inspires Futures

Our flagship pathways are carefully integrated into each young person's personalised programme, ensuring that learning is engaging, purposeful and connected to their individual interests and aspirations.

By combining academic education with practical experiences and industry expertise, we help young people rediscover a love of learning, celebrate their achievements and begin to imagine positive futures they may previously have thought impossible.

Every skill learned, every achievement recognised and every success celebrated becomes another step towards greater confidence, increased independence and lifelong opportunity.

Sport, Outdoor Learning & Wellbeing

Building Confidence Through Experience

At YoungEducation, we understand that learning extends far beyond the classroom. For many young people, confidence is not rebuilt by sitting behind a desk alone, but by experiencing success through physical activity, outdoor learning and opportunities that challenge them in positive and meaningful ways.

Our Sport, Outdoor Learning and Wellbeing programme has been carefully designed to help young people develop resilience, improve emotional wellbeing and strengthen the personal qualities that support success both in education and in everyday life. Every activity is delivered within a safe, supportive and structured environment where encouragement, achievement and personal growth are at the heart of the experience.

Whether a young person is discovering a new passion, overcoming a personal challenge or simply enjoying being active, these experiences provide valuable opportunities to build confidence, develop positive relationships and create lasting memories.

Sport, Gym & Physical Development

Regular physical activity plays an important role in supporting emotional regulation, improving mental wellbeing and increasing engagement in education. Our sport and fitness programme encourages young people to set personal goals, celebrate progress and develop healthy habits that can benefit them throughout life.

Working alongside experienced coaches and mentors, young people learn that success is achieved through commitment, perseverance and self-belief. Activities are adapted to suit individual abilities and confidence levels, ensuring that every young person can participate, enjoy success and continue to develop.

Our physical development programme includes opportunities to participate in:

- Boxing and Kickboxing.
- Gym and fitness training.
- Football.
- Tennis and Padel.
- Team games and personal fitness activities.

These experiences help young people develop resilience, self-discipline, teamwork and confidence while promoting positive physical and mental wellbeing.

Therapeutic Equine Sessions

Working alongside horses provides a unique opportunity for young people to develop confidence, communication and emotional awareness in a calm and supportive environment.

Our Therapeutic Equine Sessions focus on building trust, developing relationships and encouraging young people to become more aware of their emotions and behaviours through interaction with horses. These sessions are particularly beneficial for young people who experience anxiety, low self-esteem or difficulties forming positive relationships.

By learning to care for and work alongside these remarkable animals, young people often develop greater patience, empathy, responsibility and self-confidence, while experiencing the therapeutic benefits that time spent outdoors and with animals can provide.

Bushcraft & Outdoor Learning

Nature provides an inspiring environment in which young people can challenge themselves, develop practical skills and experience success in different ways.

Our Bushcraft and Outdoor Learning programme encourages young people to step outside their comfort zone while developing resilience, teamwork and problem-solving skills through carefully planned outdoor activities.

Activities may include:

- Shelter building.
- Fire lighting and outdoor cooking (where appropriate).
- Navigation and map reading.
- Team-building challenges.
- Environmental awareness and conservation.

Outdoor learning encourages young people to become more independent, improve communication and develop the confidence to overcome challenges in a supportive and enjoyable environment.

Developing the Whole Person

Every activity within our Sport, Outdoor Learning and Wellbeing programme has been carefully chosen because of the positive impact it can have on a young person's overall development.

Alongside physical skills, young people develop qualities that support every aspect of their education and future lives, including:

- Confidence and self-esteem.
- Emotional regulation and resilience.
- Teamwork and communication.
- Leadership and responsibility.
- Respect for themselves and others.
- Healthy lifestyle choices and personal wellbeing.

These experiences often become the foundation upon which young people begin to rebuild trust in themselves, develop positive relationships and recognise that they are capable of achieving far more than they previously believed.

Growing Stronger Every Day.

0800 888 6221 | clientsupport@youngeducation.co.uk | www.youngeducation.co.uk

Creative Learning

Inspiring Creativity, Building Confidence and Unlocking Potential

Creativity has the power to engage, inspire and transform. For many young people, creative learning provides an opportunity to express themselves in ways that traditional classroom learning cannot. It encourages curiosity, develops confidence and allows young people to experience success through exploration, imagination and practical achievement.

At YoungEducation, we believe that creative education is an essential part of a balanced curriculum. Whether a young person is learning to play a musical instrument, producing their own music, creating artwork or developing practical craft skills, every activity is designed to nurture confidence, improve wellbeing and encourage personal growth.

Our creative pathways provide opportunities for young people to discover new interests, develop lifelong hobbies and explore future career aspirations, all within a calm, supportive and encouraging environment.

Music & Instrumental Learning

Music is a powerful tool for communication, creativity and emotional expression. It provides young people with the freedom to develop new skills while building patience, resilience and self-confidence.

Whether learning their first chords or developing existing musical ability, young people are encouraged to progress at their own pace with guidance from experienced tutors and musicians.

Our instrumental music programme includes opportunities to learn:

- Piano.
- Acoustic Guitar.
- Electric Guitar.
- Drums.

Alongside developing musical ability, young people improve concentration, listening skills, coordination and perseverance, while experiencing the satisfaction that comes from mastering a new instrument.

For many young people, music becomes a positive outlet for self-expression and an important part of their educational journey.

0800 888 6221 | clientsupport@youngeducation.co.uk | www.youngeducation.co.uk

Creative Arts & Practical Crafts

Creative activities allow young people to slow down, focus and express themselves in a safe and supportive environment. They provide valuable opportunities to build confidence through achievement while encouraging imagination, problem-solving and attention to detail.

Our creative programme offers a wide variety of activities designed to suit different interests and learning styles, ensuring that every young person can experience success through creativity.

Opportunities include:

- Arts and Crafts.
- Knitting.
- Crocheting.
- Design projects.
- Seasonal and collaborative creative activities.

These activities are particularly beneficial for young people who may experience anxiety or benefit from calmer, more structured learning experiences. They encourage mindfulness, improve fine motor skills and help develop patience, concentration and emotional regulation.

Woodwork & Practical Design

Working with wood introduces young people to practical craftsmanship while developing creativity, precision and problem-solving skills. Through carefully planned projects, they learn how to transform ideas into finished products using safe working practices and appropriate tools.

Young people are encouraged to plan, measure, construct and evaluate their work, building confidence as they see their projects come to life.

Woodwork helps develop:

- Practical construction skills.
- Creativity and design thinking.
- Patience and perseverance.
- Accuracy and attention to detail.
- Pride in producing high-quality work.

It also introduces potential career pathways within construction, carpentry, joinery and other skilled trades, helping young people recognise the value of practical learning and craftsmanship.

Creating Opportunities Through Creativity

Creative learning is about far more than producing artwork or learning an instrument. It is about helping young people discover their strengths, develop confidence and experience the satisfaction that comes from creating something they are proud of.

By encouraging curiosity, celebrating individuality and providing opportunities to explore a wide range of creative disciplines, we help young people develop the confidence to express themselves, embrace new challenges and recognise their own potential.

Every Young Person Has a Talent.

Outcomes & Success

Recognising Achievement. Celebrating Progress. Creating Brighter Futures.

At YoungEducation, success is measured by far more than examination results alone. Every young person arrives with their own experiences, challenges and aspirations, which is why we celebrate progress in all its forms. For some, success may be returning to education after a prolonged absence. For others, it may be achieving their first qualification, developing confidence to engage with others or taking positive steps towards further education, employment or independent living.

Our role is to help every young person recognise their own achievements and develop the confidence to believe in what they can accomplish. Through personalised programmes, specialist mentoring and high-quality teaching, we create opportunities for young people to experience regular success, building momentum that supports long-term progress and positive outcomes.

Recognising Every Achievement

Achievement is embedded throughout every aspect of our provision. Rather than focusing solely on end-point examinations, we celebrate the small milestones that lead to lasting success. This helps young people develop confidence, remain motivated and recognise the progress they are making throughout their journey.

Our programmes are underpinned by AQA Unit Awards and other recognised accreditation, enabling young people to build a portfolio of achievements that reflects both their academic and personal development.

Young people have the opportunity to achieve a minimum of 38 certificates each academic year, recognising success across a wide range of areas, including:

- English and Mathematics.
- Vocational learning and practical skills.
- Sport, fitness and physical development.
- Music and creative arts.
- Personal development and life skills.
- Wellbeing and independence.

These recognised achievements provide tangible evidence of progress and help young people develop the confidence to continue striving towards their future goals.

Want to find out more?

Measuring Meaningful Progress

Every young person follows a personalised programme with clear objectives and regular reviews. We work closely with schools, Local Authorities, parents and carers to monitor progress, celebrate achievements and ensure each programme continues to meet the young person's evolving needs.

Throughout their time with us, many young people demonstrate improvements in:

- Engagement with education.
- Attendance and participation.
- Emotional regulation and resilience.
- Confidence and self-esteem.
- Social and communication skills.
- Academic attainment and recognised qualifications.
- Preparation for further education, apprenticeships and employment.

By focusing on the whole child, we help young people develop the knowledge, skills and confidence needed to make positive and sustainable progress.

A Journey of Success

Every young person's journey is unique, but the impact of personalised support can be life changing. One young person joined YoungEducation having experienced a prolonged period out of education due to severe anxiety. Initially finding it difficult to engage with learning or social situations, they began their programme with low-pressure mentoring, practical activities and personalised English and Mathematics sessions.

As confidence grew, they gradually became involved in our Sport and Fitness programme before discovering a passion for Music Production. Through regular encouragement, structured support and opportunities to experience success, the young person began achieving AQA Unit Awards, improved attendance significantly and rebuilt confidence in their own abilities.

By the end of their placement, they had achieved numerous recognised certificates, successfully progressed towards further education and, most importantly, believed in their ability to achieve a positive future. Whilst every journey is different, this story reflects what we strive to achieve for every young person who joins YoungEducation.

Preparing for Positive Futures

Everything we do is designed with the future in mind. Our ambition is not simply to support young people while they are with us, but to equip them with the confidence, qualifications and life skills they need to succeed long after they leave our provision.

Whether progressing back into mainstream education, moving into specialist settings, continuing into college, securing an apprenticeship or preparing for employment, our focus is always on helping young people move forward with confidence and purpose.

Every Step Forward Matters

We believe that success is built through encouragement, opportunity and recognising every achievement along the way. By celebrating progress, no matter how big or small, we help young people develop confidence in themselves, take pride in what they have accomplished and look towards the future with optimism, ambition and a renewed belief in what they can achieve.

0800 888 6221 | clientsupport@youngeducation.co.uk | www.youngeducation.co.uk

Working Together

Safeguarding, Partnership & Referrals

At YoungEducation, safeguarding is not simply a statutory responsibility—it is the foundation upon which everything else is built. Young people can only learn, grow and achieve when they feel safe, supported and valued. Creating an environment where children and young people feel secure, respected and listened to is central to our culture and influences every decision we make.

We recognise that successful Alternative Provision is achieved through strong partnerships. By working collaboratively with Local Authorities, schools, parents, carers and other professionals, we ensure that every young person receives consistent support, clear communication and a personalised programme that responds to their individual needs.

From the initial referral through to regular progress reviews and successful transitions, we are committed to building trusting relationships with everyone involved in a young person's journey.

Safeguarding at the Heart of Our Provision

The safety and wellbeing of every young person is our highest priority. Our experienced team is committed to maintaining the highest standards of safeguarding, ensuring that all young people are cared for within a secure, supportive and professionally managed environment.

Our safeguarding practice is underpinned by robust policies, continuous staff training and a culture where every member of the team understands their responsibility to protect and promote the welfare of children and young people.

Our commitment includes:

- Full compliance with Keeping Children Safe in Education (KCSIE).
- Safer recruitment procedures, including Enhanced DBS and Barred List checks.
- Qualified Designated Safeguarding Leads (DSLs) and Deputy DSLs.
- Trauma-informed practice across the organisation.
- Clear safeguarding reporting and information-sharing procedures.
- Close partnership working with schools, Local Authorities and external agencies.

By creating an environment built on trust, consistency and compassion, we enable young people to feel safe enough to engage, learn and thrive.

Want to find out more?

Contact us on **0800 888 6221** or **clientsupport@youngeducation.co.uk**

0800 888 6221 | clientsupport@youngeducation.co.uk | www.youngeducation.co.uk

Working in Partnership

We believe that the best outcomes are achieved when everyone works together with a shared focus on the needs of the young person.

Throughout every placement, we maintain regular communication with commissioners, schools, parents and carers, providing clear updates, progress reports and ongoing opportunities to review each programme.

Our collaborative approach ensures that:

- Educational programmes remain responsive to changing needs.
- Progress is regularly monitored and celebrated.
- EHCP outcomes are supported where appropriate.
- Families feel informed, involved and supported.
- Schools and Local Authorities receive timely, meaningful feedback.

This partnership approach helps create consistency for young people while ensuring that everyone involved is working towards the same positive outcomes.

A Simple Referral Journey

We understand that arranging Alternative Provision often needs to happen quickly and efficiently. Our referral process has been designed to be straightforward, responsive and centred around the needs of the young person.

Following an initial enquiry, we work closely with the referring school or Local Authority to gather relevant information, understand the young person's needs and discuss the most appropriate programme of support.

Our referral journey typically includes:

1. **Initial enquiry and consultation** with the school, Local Authority or family.
2. **Review of information**, including educational history, EHCPs and professional reports where appropriate.
3. **Assessment and planning meeting** to understand the young person's strengths, interests and support needs.
4. **Personalised programme design**, including education, mentoring and enrichment activities.
5. **Placement begins**, supported by regular reviews and ongoing communication.

Our aim is to ensure every young person experiences a smooth, welcoming transition into provision, allowing them to begin building positive relationships from their very first day.

What People Say About YoungEducation

The greatest measure of our success is the positive difference we make to the lives of the young people and families we support. We are proud of the relationships we build and the trust placed in us by schools and Local Authorities.

"For the first time in years, my child actually looks forward to learning. The team took the time to understand them, and the difference in their confidence has been incredible."

Parent

"YoungEducation has provided a personalised programme that has re-engaged our student in education. Communication has been excellent throughout, and the progress made has exceeded our expectations."

School SENCO

"The mentoring and practical pathways have transformed this young person's engagement. They have developed confidence, improved attendance and are now looking positively towards their future."

Local Authority Professional

"I didn't think I'd enjoy education again, but everyone believed in me before I believed in myself. I've made friends, achieved qualifications and found something I'm really good at."

Young Person

Working Together to Create Brighter Futures

Every successful placement begins with a conversation. Whether you are a parent seeking guidance, a school exploring support for a student or a Local Authority looking for high-quality Alternative Provision, our team is here to help.

Together, we can create a personalised pathway that enables every young person to feel safe, achieve success and build the confidence to embrace a brighter future.

Together, Let's Empower Young Minds

Every Young Person Deserves the Opportunity to Succeed

At YoungEducation, we believe that every child and young person has the potential to achieve extraordinary things when they are given the right environment, the right opportunities and the right people to support them.

Our mission is to provide more than an alternative to mainstream education. We create personalised pathways that inspire confidence, develop resilience and prepare young people for successful futures. Through education, mentoring, practical learning and meaningful relationships, we help young people overcome barriers, recognise their strengths and realise their potential.

Whether we are supporting a child taking their first steps back into education, helping a teenager rediscover a love of learning or preparing a young adult for college, employment or independent living, our commitment remains the same—to provide outstanding support that changes lives.

If you are looking for a trusted Alternative Provision partner who places young people at the heart of everything they do, we would be delighted to hear from you.
